JEBIN M

Full-Stack Developer with Expertise in Artificial Intelligence

Portfolio website
<https://portfoilofofgc.onrender.com/>

PROF ILE

- Experienced Full-Stack Developer with a strong foundation in AI technologies. Skilled in front-end and back-end development, Design, implementation and optimization of AI algorithms to enhance software functionality and user experiences. Proficient in Java, Python, C, HTML, CSS, JavaScript, Node.js, Express.js, Python/FastAPI, Python/Flask, Python/Django, Docker, and server management.
- Passionate in innovation and problem-solving, I thrive in collaborative environment and enhance my skills by embracing challenging projects with technological advancements.

EXPERIENCE

Revonextsoft

Full Stack Developer

Jun 2024 to Present

- Working in Node.js, React Native Expo, MongoDB, Firebase and AWS with Docker for version control.
- Back-End Creating the api's in Node.js (Express.js, GraphQL) ,Python(Flask, Django, FastAPI)

Sensegrass

Software Developer Intern

Jan 2024 to Mar 2024

- Worked on Node.js, React Native Expo, MongoDB, and AWS. My role involves spearheading application-based projects, ensuring robust solutions from conception to deployment.
- Excellene in integrating third-party APIs, enhancing application functionality for optimal performance.

Life Changers Academy

Full Stack Developer Intern

Aug 2021 to Sep 2023

- Worked on React, Node.js, Flask, and Firebase databases
- .Architected a hospital portal that streamlined patient management processes, reducing appointment scheduling time by 40% and improving patient satisfaction scores based on feedback from over 300 users

Maxelerator Foundation

Data Science Intern

Aug 2022 to Sep 2022

- Worked on advanced machine learning and data visualization tools to analyze complex datasets, fostering cross-team collaboration and showcasing analytical prowess.
- Specialist in Teachable AI technology using Python tools, demonstrating expertise in the field.

EDUCATION

B.Tech Artificial Intelligence and Data Science

Francis Xavier Engineering college : 2021-2025

GPA: 8.0 / 10

SKILLS

Java Python C HTML CSS JavaScript C#

Framework

React Native React Native(Expo) React JS Flutter Android Studio

Server-side

NodeJS Express.js Python/FastAPI Python/Flask Python/Django Docker Server

Database

MySQL MongoDB Firebase

Cloud-side

AWS Google Cloud Platform Render Cloud

PATENTS

Guarantor of Cresential Exclusiveness

NO:202341059431 A

STRENGTHS

Teamwork Consistency Creativity

Quality Adaptability Positive Attitude

PROJECTS

- Wi-Fi voice calling Website and App(**Node.js ,Socket.io,HTML CSS,React Native**)
- Service Booking Platform App (**React Native,Node JS,MongoDB**)
- Water Can Delivery app (**React Native,Firestore for DateBase**)
- Movie Enhanced Video Streaming and Self Movie Upload App (**Flutter , FireBase for Dasebase**)
- Movie Enhanced Story Streaming App and Web (**Flutter,FireBase for Dasebase**)
- AI-Enhanced Text To PPT Generator Website (**Python Flask,React JS, Render Cloud for Backend Hosting**)
- Memory Keeper App (**React Native,FireBase for Database**)
- Real-Time Multilingual Voice Translator App and Website (**Python flask ,flutter for app and web,Render Cloud for Backend Hosting**)
- Text Generator app(**React Native Expo Web & App ,Gemini API**)
